PLANS & GRAPHIC REQUIREMENTS

Each of the following plans and drawings shall be submitted on **separate sheets**. If the size of the project requires the use of match line sets, each set of match line sets must include a sheet (at a scale to fit a 24" x 36" sheet) depicting the entire site, including match lines, as a cover sheet.

Include all of the following information:

- A. SITE PLAN:** Submit **three (3) copies** of a current site plan of the entire property. If the plan is not to scale, it must be fully dimensioned. Label and show the location of:
- abutting streets
 - property lines
 - setbacks

 - existing and approved vehicular, pedestrian, and bicycle connections

Also, if the proposal changes the amount of existing parking spaces or striping in any way, you must document how many spaces currently exist, how many are required for the existing/proposed use, and how the net result is not less than the minimum number of required spaces. To calculate the required number of parking spaces, indicate the square footage of the building dedicated to each use.

I have provided all the items required by this three (3) page submittal checklist. I understand that any missing information, omissions or both may result in the application being deemed incomplete, which may lengthen the time required to process the application.
