- F. PRE-APPLICATION CONFERENCE NOTES.** Provide a copy of the pre-application conference summary as required by the City's *Development Code Section 50.25.1.E*. The Pre-Application Conference must be held within the one (1) year prior to the submission date of the proposed project application.

G. TYPE OF DETERMINATION REQUESTED: please indicate which of the following is requested:

- A request that the Director establish, in writing, an off street loading space total or requirement for any use not listed or substantially similar to a use listed in Section 60.25 (Off Street Loading) of this Code.
- A request to modify the total number of off street loading spaces from the required number listed in Section 60.25 (Off Street Loading) of this Code.
- A request to modify the dimensions of a required off street loading space listed in Section 60.25 (Off Street Loading) of this Code.

PLANS & GRAPHIC REQUIREMENTS

All plans, except architectural elevations, shall be presented at a minimum of 1" = 20' engineering scale and on a maximum sheet size of **24" x 36"**. Architectural elevations may be presented at an architectural scale. **All plans shall be folded to fit a legal size file jacket.**

Each of the following plans and drawings shall be submitted on **separate sheets**. If the size of the project requires the use of match line sets, each set of match line sets must include a sheet (at a scale to fit a 24" x 36" sheet) depicting the entire site, including match lines, as a cover sheet.

Include all of the following information:

A. SITE PLAN: Submit **three (3) copies** of a current site plan of the entire property. If the plan is not to scale, it must be fully dimensioned. Label and show the location of:

- abutting streets
- property lines
- setbacks
- structures
- existing easements and utilities located within 25 feet of any proposed outside modifications
- existing and approved vehicular, pedestrian, and bicycle connections
- existing and proposed loading spaces.
- parking
- driveways
- areas of landscaping & natural vegetation
- proposed square footages

Also, if the proposal changes the amount of existing parking spaces or striping in any way, you must document how many spaces currently exist, how many are required for the existing/proposed use, and how the net result is not less than the minimum number of required spaces. To calculate the required number of parking spaces, indicate the square footage of the building dedicated to each use.

I have provided all the items required by this three (3) page submittal checklist. I understand that any missing information, omissions or both may result in the application being deemed incomplete, which may lengthen the time required to process the application.
