Hello Li,

The change is so insignificant you don't need a new or updated SPL. Please let me know if you have any questions.

Thank you

Subject: Update to CWS File No. 20-000808

Hello there,

We are revising the attached project SPL to convert Street A from public to private and to add a stormwater facility (see attached).

What is the best way to request an updated SPL?

Thank you!
