Attachment A: EXT2024-00259 Extension of a Decision

ANALYSIS AND FINDINGS FOR EXTENSION OF A DECISION APPROVAL

Decision: APPROVAL OF EXT2024-00259, subject to the conditions of approval identified in Attachment B.

Director Standards for Approval

Section 50.93 of the Development Code provides standards to govern the decisions of the Director as they evaluate and render decisions on Extension of a Decision applications. The Director will determine whether the application as presented meets the Extension of a Decision approval criteria.

Section 50.93.1

Approval Criterion: *An application to extend the expiration date of a decision made pursuant to the Development Code may be filed only before the decision expires as provided in Section 50.90. or before the decision expires as provided in the appropriate subsection of the specific application contained in CHAPTER 40 (Applications).*

FINDING:

The expiration date of the Millikan Warehouse Remodel Design Review Two (DR2021-0085) approval was May 24, 2024. The application for extension was filed on March 26, 2024, prior to the expiration of the decision.

Conclusion: Therefore, staff finds that the proposal meets the approval criterion.

Section 50.93.2

Approval Criterion: *The following land use decisions are not subject to extensions of time: Director's Interpretation (Section 40.25.), Home Occupation (Section 40.40.), Expedited Land Division (Section 40.45.15.9.), Preliminary Middle Housing Land Division (Section 40.45.15.10.), Loading Determination (Section 40.50.), Parking Requirement Determination (Section 40.55.15.1.), Shared Bicycle Parking (Section 40.54.15.2.), Sign (Section 40.60.), Temporary Mobile Sales (Section 40.80.15.1.), Temporary Non-Mobile Sales (Section 40.80.15.2.), and all Zoning Map Amendment (Section 40.97.) applications.*

FINDING:

The applicant's requested time extension is for a Design Review Two application. This application is not listed in Section 50.93.2 as an application that is not subject to extensions of time.

Conclusion: Therefore, staff finds that the proposal meets the approval criterion.

Section 50.93.3

Approval Criterion: *A land use decision may be extended no more than two times.*

FINDING:

This is the first extension request for Millikan Warehouse Remodel Design Review Two (DR2021-0085) decision.

Conclusion: Therefore, staff finds that the proposal meets the approval criterion.

Section 50.93.4

Approval Criterion: *Extension of a land use decision for an application not listed in Section 50.93.2. may be granted for a period of time not to exceed two (2) years, will be subject to a Type 2 review procedure, and must be found to be consistent with the approval criteria listed in Section 50.93.6.*

FINDING:

This is the first application for a time extension and has been processed according to the procedure for a Type 2 application, as specified in Chapter 50 of the City of Beaverton Development Code.

Conclusion: Therefore, staff finds that the proposal meets the approval criterion.

Section 50.93.5

Approval Criterion: *Extension requests shall provide mailed public notice to those parties identified in Section 50.40.2. In addition, the notice shall be mailed to the parties of record contained in the initial land use decision and any prior extension of time decision.*

FINDING:

Public notice for this time extension was mailed to those parties identified in Section 50.40.2, in addition to the parties of record contained in the initial land use decision.

Conclusion: Therefore, staff finds that the proposal meets the approval criterion.

Section 50.93.6

Approval Criterion: *In order to approve an extension of time application, the Director shall make findings of fact based on evidence provided by the applicant demonstrating that all the following criteria are satisfied:*

- A. *It is not practicable to commence development within the time allowed for reasons beyond the reasonable control of the applicant.*
- B. *There has been no change in circumstances or the applicable regulations or Statutes likely to necessitate modification of the decision or conditions of approval since the effective date of the decision for which the extension is sought.*
- C. *The previously approved land use decision is not being modified in design, use, or conditions of approval.*

FINDING:

The applicant states that it was not practicable to commence development within the time allowed because the owner needed to find a tenant for the subject warehouse space to bring in revenue to continue the proposed work. Once a tenant was found, the interest rates on the development were too high and the bonding fees were an unforeseen cost that required a pause on the project development.

The applicant states that there have been no code or Statute changes that are applicable to the proposal that would necessitate a modification of the decision or the conditions of approval. Staff concurs that there have been no changes that impact the Design Review Two approval or its conditions of approval.

The applicant states that there are no proposed changes to the approved design, use, or conditions of approval of the Design Review Two application.

Conclusion: Therefore, staff finds that the proposal meets the approval criterion.

Conclusion and Recommendation

Based on the facts and findings presented above, the Director **APPROVES EXT22024-00259**, subject to the conditions of approval in Attachment B.
