Dear Beaverton,

Why is there such a limited comment timeframe for the this project? Please stop allowing construction of massive parking lots, gas stations, car dealerships, drive-thrus, or additional car lanes. Please force this project to build twelve foot wide sidewalks with massive native trees.

Please install wider sidewalks on SW Allen Boulevard to the east of SW Lombard Avenue. Also, the Beaverton roundabout project was and is a complete waste of money. You have made that area look like a generic freight district in the boondocks of Hillsboro, Oregon.
