Greetings Ms Russell
Concerning the proposed Cor Deo Academy on Erickson ~

Erickson is a very busy street, in spite of being a residential neighborhood, because it is a thru-way to Allen Blvd and points East and West. People speed, nearly every vehicle. There is only one speed limit sign. Not that anyone pays attention.

Because we have a large renovated park, we have a lot of walkers and small children. At the park, there is a side street which has very poor visibility of oncoming traffic on Erickson. With increased traffic there is an accident waiting to happen.

A solution would be to have STOP signs at the crossing, from the park to the east side of the street. It is true that a member of my condo community objected to this solution when it was proposed a few years ago. He has moved to the coast!

The STOP signs are one solution, another would be speed bumps, two sets.

I know most residential neighborhoods would love to have speed bumps and frankly, they are a lot cheaper than cops. I am amazed the city hasn't taken up the challenge.

The proposed school would increase the traffic on Erickson. If Beaverton High School ever opens again to on-site classes, that traffic would add to what we have. Thank you for asking the opinion of the people who live here. [13155 SW Allen #17]
