CAUTION: This email originated from outside the City of Beaverton. Exercise caution when opening attachments or clicking links from unknown senders.

Hello,

I live across the street from the proposed dog park at Ridgewood Park and I am emailing to show my support. People use this as an off-leash area as is and I would rather see a section fenced-in to ensure dogs' safety than having it left open. I experienced the trial period and thought it went well. Some of my neighbors are worried about increased traffic congestion and cyclists from the bike path getting hit but I don't share in those concerns. I think increased traffic with people parking may actually slow down existing traffic.

Thanks!

AL Ward
