attachments or clicking links from unknown senders.

We live adjacent to the neighborhood on SW Division in Beaverton where
the Sikh Temple would be
located. This is not an appropriate area to put anything that would have
to accommodate the traffic this
would cause. This neighborhood has been and is desirable for home owners
because it is quiet and has
little traffic. Putting anything with the traffic this would attract is
not fair To the current homeowners
who have purchased here and would more than likely lower the value of our
homes.
I really hope you do not go forward with this- I think you will have many
very upset homeowners if you
do.

Donald and Cheryl Dutro
