Here was the garbage situation as of this morning, August 18th, the morning after the meeting to discuss approval of this change. I would like this photo included in the report for next week. Today's example clearly illustrates the ongoing trash issue we have been dealing with from this business venture for 5 years.

Talk to Kevin Pelatt or Drew Vanderveen of Beaverton City Cope Compliance if you want to verify that our complaints have been filed formally, with associated photos.
