Subject: [EXTERNAL] Greenway Park Restroom

CAUTION: This email originated from outside the City of Beaverton. Exercise caution when opening attachments or clicking links from unknown senders.

I write in support of this restroom facility, but I do have some concerns which I would like to have addressed in the design and operation of the facility.

I would like to see:

- 1) the inclusion of natural overhead lighting in case of a power failure or non-working light fixtures.
- 2) assurance that the design will meet or exceed seismic event impacts.
- 3) I have concerns about flooding and effluent discharge in a flooding event and I am assuming that the restrooms will be connected to the sewerage system.
- 4) with the added parking and site improvements, has consideration been given to include an electric vehicle (EV) charging station?
- 5) will the sinks have both hot and cold water or cold only?

Thank you for continuing to improve our parks.
