COMMENTS/FINDINGS

According to the applicant's Traffic Impact Study dated August 2021, the applicant proposes to develop a 4,000SF restaurant (assumes to include a pad with 2,000SF fast food restaurant with a drive through and another 2,000SF fast food restaurant without a drive through), a 4,000SF convenience storage, a gas station (12 fueling positions) and a 122 room extended room hotel.

ODOT appreciates the additional traffic analysis the applicant has prepared in response to our request. The additional memo prepared by Kittelson and Associates dated January 21, 2022 shows how the interchange ramp intersections will operate with the proposed development and completion of the ODOT Auxiliary Lanes Project. ODOT concurs with the conclusion that the intersections will operate within the Oregon Highway Plan mobility targets for the interchange area.
