Project Name: Greenway Park Restroom

Case File No: CU2022-0010 / DR2022-0116 / PD2022-0005

Questions and concerns about the subect project:

- 1 - My major concern is the actual location of the restroom. It should be placed where it has no impact on those residents whose property abuts the park. There is enough space within the park so the location of the restroom should not visually impact the backyards of those living on the park.
- 2 - Will the restroom be patrolled frequently so it can be safely used by children playing alone in the park?
- 3 - Will the restroom be locked at dusk when the park closes to discourage illicit use and vandalism?
- 4 - How often will it be cleaned and inspected for damage and any repairs needed?

Thank you for your consideration,

Jack Krieger
