To Whom It May Concern,

I am writing in response to the request for the restaurant located on Laurelwood to act as a club and expand hours beyond current zoning.

I strongly disagree with any suggestion to modify or allow alterations to the current zoning for the area.

When I travel up and down Laurelwood Avenue I see on both side of the street neighborhoods with families. Those families have kids that are walking dogs and driving to high school games. There is no benefit for additional late night club traffic endangering lives.

I strongly suggest not changing the current codes that were present when the business was started.

We look forward to continuing to support Queenz as a neighborhood RESTAURANT.
