Birttany,

We just want to weigh in on the Queenz Asian Cuisine request for permission to extend hours, which we were told by the planning department meant until 7:00 AM the next morning. We want to address livability. There are families on our street that need to be rested for work and school. We are retirees in our 80's and plan on ageing in place. We have lived in our home for 50 years and would like to stay here as long as possible. We are aware of the thumping (low frequencies) from the music and the noise from customers are problematic. I hate to think that these unnecessary issues would drive us from our home. When we were annexed to Beaverton we were supportive of it and hoped that it would help protect our environment.
