There are several problems with this property. This is a residential neighborhood. There is no room for commercial property. Parking, traffic and sanitation are already a major problem. What happens when you expand to include 15 residents? In my opinion, this place should not even be operating here. It has no place in a residential neighborhood. I live on 78th Ave and frequently travel through this area. Traffic problems are massive with all the deliveries and just where do you think people are going to park? Please consider removing this residential home from our neighborhood, and definitely don't expand to 15 people!

Thank you.

Katie Simenson
