MEMORANDUM

City of Beaverton
Community Development Department

To: Interested Parties
From: City of Beaverton Planning Division
Date: January 24, 2024
Subject: Vineyard Phase II Townhomes LU22023-00792 (DR22023-00789)

Please find attached the Notice of Decision for **Vineyard Phase II Townhomes LU22023-00792 (DR22023-00789)**. Pursuant to Section 50.40.11.E of the Beaverton Development Code, the decision for DR22023-00789 Vineyard Phase 2 Townhomes is final, unless appealed within twelve (12) calendar days following the date of the decision. The procedures for appeal of a Type 2 Decision are specified in Section 50.65 of the Beaverton Development Code. The appeal shall include the following in order for it to be accepted by the Director:

- The case file number designated by the City.
- The name and signature of each appellant.
- Reference to the written evidence provided to the decision-making authority by the appellant that is contrary to the decision.
- If multiple people sign and file a single appeal, the appeal shall include verifiable evidence that each appellant provided written testimony to the decision-making authority and that the decision being appealed was contrary to such testimony. The appeal shall designate one person as the contact representative for all pre-appeal hearing contact with the City. All contact with the City regarding the appeal, including notice, shall be through this contact representative.
- The specific approval criteria, condition, or both being appealed, the reasons why a finding, condition, or both is in error as a matter of fact, law or both, and the evidence relied on to allege the error.
- The appeal fee of \$250.00, as established by resolution of the City Council.

The appeal closing date for DR22023-00789 Vineyard Phase II Townhomes is 4:30 p.m., February 5, 2024.

The complete case files including findings, conclusions, and conditions of approval, if any, are available for review. The case files may be reviewed by contacting the project planners, Brett Cannon, at bcannon@beavertonoregon.gov or Steven Okey, at sokey@beavertonoregon.gov.

NOTE: The Community Development Department is currently open to the public on a limited basis, Monday through Thursday from 8:30 a.m. to 4:30 p.m. Please note that the Community

Development Department is not open to the public on Fridays at this time. Staff recommends visiting <https://www.beavertonoregon.gov/183/Community-Development> for the most up-to-date information about in-person and virtual services.

Accessibility information: This information can be made available in large print or audio tape upon request. Assistive listening devices, sign language interpreters, or qualified bilingual interpreters can be made available at any public meeting or program with 72 hours advance notice. To request these services, contact Brett Cannon by calling (503) 278-6738 / email bcannon@beavertonoregon.gov or Steven Okey by calling (503) 350-4026 / email sokey@beavertonoregon.gov.

STAFF REPORT

Report date: January 17, 2024

Application/project name: LU22023-00792 Vineyard Phase II Townhomes

Application Numbers: DR22023-00789

Proposal: The applicant, TNHC Oregon, LLC (AKA The New Home Company), requests Design Review Two approval for the construction of single-family attached (townhome) dwellings within Phase 2 of the previously approved Vineyard at Cooper Mountain Planned Unit Development (CU2018-0014). The review is generally limited to the proposed building articulation and variety, landscaping, and lighting. The original Planned Unit Development received approval under the 2018 Development Code, therefore the applicant's required Design Review Two application will be reviewed under the same code. At the time of the Planned Unit Development approval, the subject site was zoned Urban Medium Density (R2), Urban Medium Density (R4), Urban Standard Density (R5) and Urban Standard Density (R7). The proposed single-family attached dwellings are located within the portions of the site zoned R2 (Lots 156-170 and 186-198) and R4 (Lots 171-174).

Proposal location: The site is identified as tax lot 1600 on Washington County Tax Assessor's Map 1S131 and is located west of SW 175th Avenue.

Applicant: TNHC Oregon, LLC

Decision: APPROVAL of DR22023-00789, subject to conditions identified at the end of this report.

Existing Conditions

Zoning: Residential Mixed A (RMA) and Residential Mixed B (RMB) – Formerly R2 and R4 at time of original Planned Unit Development (CU218-0014) and Preliminary Subdivision applications (LD2018-0025 / LD2018-0026) in November 2018.

Site Conditions: The site is currently vacant land that has been graded and improved per an existing Site Development Permit approval.

Site Size: 80,403 square feet

Location: The site is located north of SW Barrows Road, south of SW Alvord Lane and west of SW 175th Avenue.

Neighborhood Association Committee: Neighbors Southwest

Table 1: Surrounding Uses

Direction	Zoning	Uses
North	Residential Mixed A (RMA)	Vacant
South	RMA & Residential Mixed B (RMB)	Vacant
East	RMA & Residential Mixed B (RMB)	Single-detached residential
West	RMA & Residential Mixed B (RMB)	Vacant / Single-detached residential

Attachment A: FACILITIES REVIEW

Application: LU22023-00792 (DR22023-00789) Vineyard Phase II Townhomes

Proposal: The applicant, TNHC, LLC, requests Design Review Two approval for the construction of townhomes and associated landscaping and lighting. The lots were previously approved as part of a Planned Unit Development, The Vineyard at Cooper Mountain PUD (ZMA2018-0005/CU2018-0014/LD2018-0025/LD2018-0026/PLA2018-0002/SDM2018-0004/TP2018-0007).

Recommendation: APPROVE DR22023-00789

Finding: The Facilities Review Committee finds the applicable Facilities Review Committee approval criteria have been met.

Section 40.03 Facilities Review Committee:

The Facilities Review Committee has conducted a technical review of the application, in accordance with the criteria contained in Section 40.03 of the Development Code. The Committee's findings and recommended conditions of approval are provided to the decision-making authority. As they will appear in the Staff Report, the Facilities Review Conditions may be re-numbered and placed in a different order. The decision-making authority will determine whether the application as presented meets the Facilities Review approval criteria for the subject application and may choose to adopt, not adopt, or modify the Committee's findings.

The Facilities Review Committee Criteria for Approval will be reviewed for all criteria that are applicable to the submitted application(s) as identified below:

- All twelve (12) criteria are applicable to the Design Review Two (DR2023-0019) application as submitted.

Section 40.03.1.A

Approval Criterion: *All critical facilities and services related to the proposed development have, or can be improved to have, adequate capacity to serve the proposed development at the time of its completion.*

FINDING:

Chapter 90 of the Development Code defines "critical facilities" to be services that include potable and non-potable public water; public sanitary sewer; stormwater drainage, treatment, and retention; transportation; and fire protection.

Potable Water: The subject site is served by City of Beaverton public water service. Water mains abut the site to the east and west. The proposed scope of work associated with this proposal (LU22023-00789) does not include modifications to utility locations or

connections for potable water service to this site as approved by The Vineyard at Cooper Mountain PUD (ZMA2018-0005/CU2018-0014/LD2018-0025/LD2018-0026/PLA2018-0002/SDM2018-0004/TP2018-0007). Additionally, the applicant states that a Site Development Permit (SD2018-0024) was issued by the City and that no changes to the approved plans are proposed with this application. Additionally, Sheet P6.0 of the applicants plan set identify an 8-inch waterline within SW 176th Drive that will serve the proposed townhomes. Therefore, the Committee finds that adequate potable public water service can be provided to the site to serve the proposed development.

Non-Potable Water: The subject site is served by the City of Beaverton non-potable water network. The site will connect to the existing two-inch non-potable water main located in SW Barrows Road right of way, as approved by SD2018-0024. Therefore, the Committee finds that the proposal meets the requirement to connect to the non-potable water network.

Sanitary Sewer: Sanitary sewer service is provided by the City of Beaverton, and the project does not propose changes to sanitary sewer utility locations as approved with The Vineyard at Cooper Mountain PUD (ZMA2018-0005/CU2018-0014/LD2018-0025/LD2018-0026/PLA2018-0002/SDM2018-0004/TP2018-0007) and Site Development Permit SD2018-0024. The proposed townhomes will connect to an approved 8-inch sanitary sewer line in SW 176th Drive, which connect to an existing 8-inch sewer line in SW Barrows, which ultimately connects to existing facilities within SW 175th Avenue. Therefore, the Committee finds that adequate sanitary sewer service can be provided to the site to serve the proposed development.

Stormwater Drainage, Treatment, and Retention: The subject site is served by City of Beaverton storm sewer service. Infrastructure serving the townhomes was approved with the original Vineyard at Cooper Mountain PUD and subsequent Site Development Permit and will provide adequate stormwater service for the proposed development. The townhomes will connect to a proposed 12-inch stormwater line within SW 176th Drive, as seen on Sheet P6.0 on the applicants plan set.

Transportation: The site is bordered by SW 175th Avenue to the east and SW Barrows Road on south and west. The extension of SW Barrows Road to the south and the extension of SW Alvord Lane to the north, were approved with The Vineyard at Cooper Mountain PUD. This previous approval also included the construction of SW 176th Drive, a Local Street which will provide direct pedestrian and vehicular access to Lots 156-174 and 186-198. SW Barrows Road, SW Alvord Lane, and SW 176th Drive will be maintained by the City of Beaverton once constructed. The Committee finds that a safe and efficient transportation network will be provided for the subject site.

Fire Protection: Fire protection will be provided by Tualatin Valley Fire and Rescue (TVF&R). TVF&R reviewed the original Vineyard at Cooper Mountain PUD and had no comments at the time. The applicant provided a TVF&R permit (#2023-0170) showing the construction of the townhomes, hose pull length and access requirements.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.B

Approval Criterion: *Essential facilities and services related to the proposed development are available, or can be made available, with adequate capacity to serve the development prior to its occupancy. In lieu of providing essential facilities and services, a specific plan may be approved if it adequately demonstrates that essential facilities, services, or both, will be provided to serve the proposed development within five (5) years of occupancy.*

FINDING:

Chapter 90 of the Development Code defines “essential facilities” to be services that include schools, transit improvements, police protection, and on-site pedestrian and bicycle facilities in the public right-of-way.

Schools: The proposed development is within the Beaverton School District (BSD) boundaries. BSD reviewed the original Vineyard at Cooper Mountain PUD and issued a Service Provider Letter (SPL) stating that sufficient capacity exists to serve The Vineyard at Cooper Mountain PUD. The applicant has also submitted correspondence dated March 1, 2023 between BSD and the applicant which confirms that a new SPL is not required since the number of proposed units is consistent with the original approval. The Committee finds that adequate school facilities are provided for this development.

Transit Improvements: The subject property is not currently served by public transit. TriMet anticipates expanding bus service to the South Cooper Mountain area in the future. However, the locations of future bus stops are unknown at this time.

Police Protection: The City of Beaverton Police Department will serve the development site. As of the date of this report, Beaverton Police have not provided comments or recommendations to the Committee. Therefore, the Committee finds that adequate police protection service can be provided to the site to serve the proposed development.

Pedestrian and Bicycle Facilities: Public pedestrian and bicycle facilities serving the subject site were approved with The Vineyard at Cooper Mountain PUD, and this proposal does not request to modify those facilities. Public sidewalks abut the site to the south within the future SW Barrows Road extension and to the north within the future SW Alvord Lane extension. Public sidewalks within the future SW 176th Avenue will also abut lots numbered 156-174 and 186-198. Pedestrian access from SW 175th to SW 176th and lots 156-174 and 186-198 will be provided by a pedestrian pathway in Tract P.

For these reasons, the Committee finds that essential facilities and services related to the proposed development are available or can be made available with adequate capacity to serve the development.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.C

Approval Criterion: *The proposed development is consistent with all applicable provisions of Chapter 20 (Land Uses) unless the applicable provisions are modified by means of one or more applications which shall be already approved or which shall be considered concurrently with the subject application; provided, however, if the approval of the proposed development is contingent upon one or more additional applications, and the same is not approved, then the proposed development must comply with all applicable provisions of Chapter 20 (Land Uses).*

FINDING:

The site is currently zoned RMA and RMB. At the time of The Vineyard at Cooper Mountain PUD approval (2018), the site was zoned R2 (now RMA) and R4 (now RMB). Lots 156-186 and Tract P are within the RMA zoning district and lots 171-174 and Tract Q are within the RMB zoning district. The PUD approval modified select base zoning standards of the R2 and R4 zoning districts, including setback requirements internal to the PUD and height maximums. Parent parcels that comprised the PUD were required to meet the setbacks of the underlying zoning district.

The Committee refers to the Code Conformance Analysis table at the end of this report, which evaluates the project as it relates to applicable code requirements of Chapter 20 (Land Uses) that were in effect on the date of original PUD application and modifications approved with the PUD. As demonstrated in the table, the development proposal is consistent with all applicable provisions of Chapter 20 (Land Uses) or the standards approved with The Vineyard at Cooper Mountain PUD.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.D

Approval Criterion: *The proposed development is consistent with all applicable provisions of Chapter 60 (Special Requirements) and all improvements, dedications, or both, as required by the applicable provisions of Chapter 60 (Special Requirements), are provided, or can be provided in rough proportion to the identified impact(s) of the proposed development.*

FINDING:

The Committee cites the Code Conformance Analysis chart at the end of this report, which evaluates the proposal as it relates the applicable Code requirements of Chapter 60 (Special Requirements). Staff will provide findings for the Design Review Two request within the applicable section of the staff report.

Section 60.30 Off-Street Parking: This proposal is subject to the development code that was in effect at the time of PUD and Subdivision applications on June 13, 2018. Based on the off-street parking regulations of BDC 60.30.10.5 at that time, attached dwellings in a residential zone must provide at least 1.75 vehicular parking spaces for units with three bedrooms or more. The applicant states all 32 units will have 3 bedrooms. Each unit is shown to have two parking spaces, one in the garage and one in the driveway leading to the garage. For 32 units the maximum permitted parking is 64 spaces.

At the time of PUD and Subdivision applications, the development code did not require short- or long-term bicycle parking for single-family attached dwellings. The proposed development does not include short- or long-term bicycle parking facilities. The Committee finds that the applicable requirements of BDC 60.30 are met by the proposal.

Section 60.35. Planned Unit Development: The subject site was identified as Phase 2A near the southeastern portion of The Vineyard at Cooper Mountain PUD and was previously approved for the development of 32 attached single-family dwellings. The subject Design Review Two is limited to proposed building design, landscaping, and lighting. Therefore, this request is consistent with the original Vineyard at Cooper Mountain PUD approval and meets applicable conditions of approval of the original decision.

Section 60.55 Transportation Facilities: Conformance with the provisions of BDC 60.55 were evaluated at the time of original PUD approval, and the subject proposal maintains conformance with the previous approval related to transportation facilities. The subject proposal meets the L2 Local Street Cross Section requirements from the Engineering Design Manual.

For these reasons, the Committee finds that by meeting the conditions of approval, the proposal complies with applicable BDC 60.55 regulations.

Conclusion: Therefore, the Committee finds that by meeting the conditions of approval, the proposal meets the approval criterion.

Section 40.03.1.E

Approval Criterion: *Adequate means are provided or can be provided to ensure continued periodic maintenance and necessary normal replacement of the following private common facilities and areas, as applicable: drainage facilities, roads and other improved rights-of-way, structures, recreation facilities, landscaping, fill and excavation areas, screening and fencing, ground cover, garbage and recycling storage areas, and other facilities not subject to maintenance by the City or other public agency.*

FINDING:

The applicant states that all of the private common facilities and areas including drivable surfaces, sidewalks, roads, structures, recreation facilities, landscaping, fill and excavation areas, screening and fencing, ground cover, and any other facility not subject

to maintenance by the City will remain to be maintained by the Home Owners Association, as currently approved. The Committee finds that the proposal as represented does not present any barriers, constraints, or design elements that would prevent or preclude required maintenance of the private infrastructure and facilities on site.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.F

Approval Criterion: *There are safe and efficient vehicular and pedestrian circulation patterns within the boundaries of the development.*

FINDING:

The proposal includes on-site improvements that facilitate safe and efficient vehicular and pedestrian circulation patterns. All lots (156-198) will have direct pedestrian and vehicular connections to SW 176th. Additionally, Tract P, which is located between Lot 168 and Lot 169 will provide a pedestrian connection from SW 176th Drive to SW 175th Avenue.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.G

Approval Criterion: *The development's on-site vehicular and pedestrian circulation systems connect to the surrounding circulation systems in a safe, efficient, and direct manner.*

FINDING:

The proposed townhome development provides safe, efficient, and direct vehicular and pedestrian connections to surrounding circulation systems. The proposed townhomes are located north of the future SW Barrows Road extension and south of the future SW Alvord Lane extension each of which will connect to the future right of way of SW 176th Drive. The Committee finds that these connections, as approved with the Vineyard at Cooper Mountain PUD, are safe, efficient, and direct.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.H

Approval Criterion: *Structures and public facilities serving the development site are designed in accordance with adopted City codes and standards and provide adequate fire protection, including, but not limited to, fire flow.*

FINDING:

Fire protection will be provided by Tualatin Valley Fire and Rescue (TVF&R). TVF&R reviewed the original Vineyard at Cooper Mountain PUD and had no comments at the time. The applicant provided a TVF&R permit (#2023-0170) showing the construction of the townhomes.

Therefore, the Committee finds that the site can be designed in accordance with City codes and standards and provides adequate fire protection.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.I

Approval Criterion: *Structures and public facilities serving the development site are designed in accordance with adopted City codes and standards and provide adequate protection from crime and accident, as well as protection from hazardous conditions due to inadequate, substandard, or ill-designed development.*

FINDING:

The subject proposal does not include modifications to streets or public facilities that were approved with the PUD. Therefore, structures and public facilities serving the development site have been designed in accordance with adopted City codes and standards except where design modifications or exceptions have been previously approved. All public facilities that will serve this development previously obtained Site Development Permit approval and have been constructed. The Committee finds that the previous review of the construction documents for the Site Development Permit and the forthcoming Building Permit reviews in addition to the subsequent inspection phases will ensure protection from hazardous conditions due to inadequate, substandard, or ill-designed development.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.J

Approval Criterion: *Grading and contouring of the development site is designed to accommodate the proposed use and to mitigate adverse effect(s) on neighboring properties, public right-of-way, surface drainage, water storage facilities, and the public storm drainage system.*

FINDING:

The applicant states that as proposed, grading will remain consistent with the approved preliminary plans. The applicant further states that the buildings are designed to minimize

grading, with the units stepping down along the street in harmony with the topography and street grades. In addition to site grading, water quantity, quality, and hydromodification were addressed as part of the site development permit review for SD2018-0024. The applicant explains that stormwater will be collected from the site and diverted to the regional stormwater facility to the south of the site. The Committee finds that a Site Development permit has been issued for this site and this Design Review Two application does not propose changes to the previously approved grading and stormwater approach. Because of this, the Committee finds that the subject proposal will not have adverse effects on neighboring properties, public right-of-way, surface drainage, water storage facilities, or the public storm drainage system.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.K

Approval Criterion: *Access and facilities for physically handicapped people are incorporated into the development site and building design, with particular attention to providing continuous, uninterrupted access routes.*

FINDING:

The applicant states that at completion, the on-site vehicular and pedestrian circulation systems will be connected to the surrounding circulation systems and residences in a safe, efficient, and direct manner, and in accordance with ADA requirements. Staff concurs and finds that the previously approved Site Development Permit and the Building Permit reviews following land use approval will ensure that all applicable accessibility standards of the International Building Code, Fire Code, and other ADA standards will be met by the development. The Committee finds that the review of the proposed plans at the Building Permit stage is sufficient to guarantee compliance with accessibility standards.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Section 40.03.1.L

Approval Criterion: *The application includes all required submittal materials as specified in Section 50.25.1 of the Development Code.*

FINDING:

The applicant submitted the Design Review Two application on November 3, 2023, and the application was deemed complete on November 29, 2023.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criterion.

Code Conformance Analysis

Chapter 20 Use and Site Development Requirements Residential Urban Medium Density District (R2 - Lots 156-170/186-198) and (R4 - Lots 171-174) Zoning Districts

CODE STANDARD	CODE REQUIREMENT	PROJECT PROPOSAL	MEETS CODE?
Development Code Section 20.10.20			
Attached Residential Dwellings	Permitted	The applicant proposes to construct 32 townhome units divided amongst 8 buildings in the R2 and R4 Zone.	YES
Development Code Section 20.10.15			
Land Area	R2 Minimum: 2,000 square feet Maximum: None R4 Minimum: 4,000 square feet Maximum	Townhome lots range from 1,890 to 3,563 were approved with the PUD, which allows for the modification of base zone standards.	YES
Residential Density	The Vineyard at Cooper Mountain PUD established the following density requirements for parcels developed in the R2 and R4 zoning district: R2 Minimum total units: 59 Maximum total units: 180 R4 Minimum total units: 36 Maximum total units: 135 Units approved in the R2 zoning district: 65 Units approved in the R4 zoning district: 54	28 units in the R2 zone are included in this proposal, as approved with the PUD (providing a portion of the 65 approved units) 4 units in the R4 zone are included in this proposal, as approved with the PUD (providing a portion of the 54 approved units)	YES
Minimum Lot Dimensions	R2 Width: 14 feet Depth: None R4 Width: 24 feet Depth: 80 feet	Width: Ranges between 20 and 53 feet Depth: Ranges between 94 and 126 feet	YES
Yard Setbacks	Parent parcels of the Scholls Heights at South Cooper Mountain PUD must meet the minimum yard setbacks of the underlying zone district. This site is zoned R2 and butts the eastern portion of site abut SW 175 th Avenue. The original PUD approval identified the SW 175 th frontage as the "front" therefore the front	Parent Parcel Side (east): 23 feet Front (west): 18 feet Front (garage): 20 feet Side (north/south): 0 feet (attached units) and 3.5 feet (end units) Rear (east): Approximately 23 feet The lots on which the proposed townhomes are located, are setback further than 22 feet from SW 175 th .	YES

	<p>setback from SW 175th is 10 feet.</p> <p>Interior Setback Requirements per PUD Approval for R2 and R4 zones: Front Minimum: 8 feet Sides: 0/3/8 feet Rear:12 feet Front Garage: 20 Rear Garage: 4/20</p>	<p>Proposed Setbacks:</p> <p>Building 1: Front: 22 feet South Side:9.16 feet North Side: 4 feet Rear:22.81 feet Front Garage: 20.02 feet Rear Garage: N/A</p> <p>Building 2: Front: 17.67 feet South Side: 4 feet North Side: 4 feet Rear: 35.13 feet Front Garage: 20 feet Rear Garage: N/A</p> <p>Building 3: Front: 17.67 feet South Side:4 feet North Side: 4 feet Rear: 35.13 feet Front Garage: 20 feet Rear Garage: N/A</p> <p>Building 4: Front: 18.83 feet South Side: 4 feet North Side: 4 feet Rear: 41.73 feet Front Garage: 20.91 feet Rear Garage: N/A</p> <p>Building 5: Front: 18.25 feet North Side: 4 feet South Side: 4 feet Rear: 57.38 feet Front Garage: 20.54 feet Rear Garage: N/A</p> <p>Building 6: Front: 19.69 feet South Side: 4 feet North Side: 4 feet Rear: 20.21 feet Front Garage: 20.65 Rear Garage: N/A</p> <p>Building 7: Front: 17.67 feet South Side: 4 feet North Side: 4 feet</p>

Attachment B: DESIGN REVIEW TWO DR22023-00789

ANALYSIS AND FINDINGS FOR DESIGN REVIEW TWO

Decision: Based on the facts and findings presented below, staff recommends **APPROVAL** of **DR22023-00789**, subject to the conditions identified in Attachment C.

Section 40.03.1 Facilities Review Approval Criteria:

The applicant for development must establish that the application complies with all relevant standards in conformance with Section 50.25.1.B, and all the following criteria have been met:

Facilities Review Approval Criteria Section 40.03.1.A-L

FINDING:

Staff has reviewed the applicable Facilities Review criteria in Attachment A to this report. Staff cites the findings presented in Attachment A in response to the Facilities Review approval criteria. As identified in Attachment A, above, the proposal meets all applicable criteria.

Conclusion: Therefore, the Committee finds that the proposal meets the approval criteria.

Section 40.20.05 Purpose:

The purpose of Design Review is to promote Beaverton's commitment to the community's appearance, quality pedestrian environment, and aesthetic quality. It is intended that monotonous, drab, unsightly, dreary, and inharmonious development will be discouraged. Design Review is also intended to conserve the City's natural amenities and visual character by ensuring the proposals are properly related to their sites and to their surroundings by encouraging compatible and complementary development. The purpose of Design Review as summarized in this Section is carried out by the approval criteria listed herein.

Section 40.20.15.2.C Approval Criteria

In order to approve a Design Review Two application, the decision-making authority shall make findings of fact based on evidence provided by the applicant demonstrating that all the following criteria are satisfied:

Section 40.20.15.2.C.1

Approval Criteria: The proposal satisfies the threshold requirements for a Design Review Two application.

FINDING:

This proposal is subject to the development code that was in effect at the time of Vineyard at Cooper Mountain PUD (CU2018-0014 et al.) application submittal on June 13, 2018. The applicant proposes to construct 32 townhomes (attached residential dwellings) within a residential zone. At the time of the original PUD approval the site was given the R2 and R4 zoning designation. The site is now zoned RMA and RMB. Both the R2/R4 and RMA/RMB zones allow attached dwellings which satisfies the following threshold for a Design Review Two (ORD 2050, 4/27/2018):

3. *New construction of attached residential dwellings excluding duplexes, in any zone where attached dwellings are a permitted or conditional use.*

Conclusion: Therefore, staff finds that the proposal meets the criterion.

Section 40.20.15.2.C.2

Approval Criteria: All City application fees related to the application under consideration by the decision-making authority have been submitted.

FINDING:

The applicant has paid the required fee related to the Design Review Two application.

Conclusion: Therefore, staff finds that the proposal meets the criterion.

Section 40.20.15.2.C.3

Approval Criteria: The proposal contains all applicable application submittal requirements as specified in Section 50.25.1. of the Development Code.

FINDING:

Pursuant to Section 50.25.1, the application package includes all the necessary submittal requirements.

Conclusion: Therefore, staff finds that the proposal meets the criterion.

Section 40.20.15.2.C.4

Approval Criteria: The proposal is consistent with all applicable provisions of Sections 60.05.15. through 60.05.30. (Design Standards).

FINDING:

Staff cites the findings in the Design Review Standard Analysis chart in this report which evaluates the project in response to applicable Code standards of Sections 60.05.15

through 60.05.30 (Design Standards). The chart provides a summary response to the Design Review standards determined to be applicable to the subject case. The applicant's plans and materials show that by meeting the conditions of approval, the project is in conformance with these standards.

Conclusion: Therefore, staff finds that, by meeting the conditions of approval, the proposal meets the criterion.

Section 40.20.15.2.C.5

Approval Criteria: For additions to or modifications of existing development, the proposal is consistent with all applicable provisions of Sections 60.05.15 through 60.05.30 (Design Standards) or can demonstrate that the proposed additions or modifications are moving towards compliance with specific Design Standards if any of the following conditions exist:

- a. A physical obstacle such as topography or natural feature exists and prevents the full implementation of the applicable standard; or
- b. The location of existing structural improvements prevent the full implementation of the applicable standard; or
- c. The location of the existing structure to be modified is more than 300 feet from a public street.

If the above listed conditions are found to exist and it is not feasible to locate a proposed addition in such a way that the addition abuts a street, then all applicable design standards except the following must be met:

- d. If in a Multiple Use District, building location, entrances and orientation along streets, and parking lot limitations along streets (Standards 60.05.15.6 and 60.05.20.8)
- e. If in a Multiple Use or Commercial District, ground floor elevation window requirements (Standard 60.05.15.8).

FINDING:

The proposed project is not an addition to or a modification of an existing development. Rather, the applicant proposes the construction of new townhomes on a site that has received previous approvals, including a PUD approval and Subdivision approval.

Conclusion: Therefore, staff finds that this criterion is not applicable.

Section 40.20.15.2.C.6

Approval Criteria: The proposal complies with the grading standards outlined in Section 60.15.10 or approved with an Adjustment or Variance.

FINDING:

The applicant states that as proposed the grading will remain consistent with the approved preliminary plans submitted as part of the Site Development Permit review for Permit SD2023-0007.

Conclusion: Therefore, staff finds that the proposal meets the criterion.

Section 40.20.15.2.C.7

Approval Criteria: Applications and documents related to the request, which will require further City approval, shall be submitted to the City in the proper sequence.

FINDING:

There are no other applications associated with this Design Review Two request. No additional applications or documents are needed related to this request.

Conclusion: Therefore, staff finds that the approval criterion is not applicable.

Section 60.05 Design Standards

Section 60.05.15 Building Design and Orientation Standards

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
Building Design and Orientation		
<p>60.05.15.1.A Max length of attached residential buildings is 200 feet</p>	<p>Building 1: 71 feet Building 2: 110 feet Building 3: 110 feet Building 4: 71 feet Building 5: 70 feet Building 6: 70 feet Building 7: 111 feet Building 8: 110 feet</p>	<p>YES</p>
Street-facing elevations and elevations containing a primary entrance:		
<p>60.05.15.1.B.1 Buildings visible from and within 200 feet of an adjacent public street shall have a minimum portion of the street-facing elevation(s) and the elevation(s) containing a primary building entrance or multiple tenant entrances devoted to permanent architectural features designed to provide articulation and variety. The percentage of the total square footage of elevation area is: Thirty (30) percent in Residential zones.</p>	<p><u>Building 1</u> -West (primary entrance & street facing): The applicant's plans show that more than 58% of the western elevation is architecturally treated with use of windows, material changes, balconies, and off-set walls.</p> <p><u>Building 2:</u> -West (primary entrance & street facing): The applicant's plans show that more than 65% of the western elevation is architecturally treated with use of windows, material changes, and off-set walls.</p> <p><u>Building 3:</u> -West (primary entrance & street facing): The applicant's plans show that more than 63% the western facing elevation of is architecturally treated with windows, off-set walls, and material changes.</p> <p><u>Building 4:</u> - West (primary entrance & street facing): The applicant's plans show that more than 58% of the western elevation is architecturally treated with use of windows, material changes, balconies, and off-set walls.</p>	<p>YES</p>

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
-----------------	------------------	----------------

Building 5:

-West (primary entrance & street facing):
The applicant's plans show that more than 59% of the western elevation is architecturally treated with windows, material changes, and off-set walls.
-North (street facing): The applicant's plans show that more than 56% of the northern elevation is architecturally treated with windows, material changes and off-set walls.

Building 6:

- East (primary entrance & street facing):
The applicant's plans show that more than 51% of the eastern elevation is architecturally treated with use of windows, material changes, and off-set walls.

Building 7:

- East (primary entrance & street facing):
The applicant's plans show that more than 62% of the eastern elevation is architecturally treated with use of windows, material changes, balconies, and off-set walls.

Building 8:

- East (primary entrance & street facing):
The applicant's plans show that more than 63% of the eastern elevation is architecturally treated with windows, material changes, and off-set walls.

<p>60.05.15.1.C.1 Maximum 40' spacing between permanent architectural features.</p>	<p>The horizontal spacing between permanent architectural features is less than 40 feet, as reflected in the submitted architecture plans.</p>	<p>YES</p>
--	--	-------------------

<p>60.05.15.1.D Undifferentiated blank walls over 150sf facing a street, common green, or shared court</p>	<p>The largest undifferentiated blank wall facing a street measures 130 square feet.</p>	<p>YES</p>
---	--	-------------------

Roof Forms		
-------------------	--	--

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
60.05.15.2.A-E Roof Forms	All nine proposed townhome buildings have sloped, multi-pitch roofs with the minimum 4:12 pitch. However, the applicant's Roof Plan for Building 2 show that the eaves project only 8.9 inches from the rear (east facing) elevation. The Roof Plan for Building 4 shows that the eaves project only 8.9 inches from the rear (west facing) elevation. Therefore, staff recommend a condition of approval requiring the applicant to submit revised plans for Buildings 2 and 4, demonstrating compliance with Section 60.05.15.2.B.	YES w/COA
Primary Building Entrances		
60.05.15.3 Primary Entrances Weather protection shall be at least six (6) feet wide and four (4) feet deep.	All primary entrances include weather protection which is at least 6 feet and at least 4 feet deep.	YES
Exterior Building Materials		
60.05.15.4.A Residential Buildings	The request proposes an attached residential use in a Residential zone. Therefore, 75% of each elevation visible from a street and those that contain a primary building entrance must be double wall construction. The applicant states that all walls are double wall construction.	YES
60.05.15.4.B 30% untreated elevations	The request is not for a Conditional Use in a Residential zone.	N/A
60.05.15.4.C Foundations	The request is not for a Conditional Use in a Residential zone.	N/A
Roof-Mounted Equipment		
60.05.15.5.A-C Equipment screening	Roof-mounted equipment is not proposed.	N/A
Building Location and Orientation along Streets in MU and Com. Zones		
60.05.15.6.A-F Street frontage Multiple Use Zones	The proposed development is in a Residential zone.	N/A
Building Scale along Major Pedestrian Routes		

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
60.05.15.7.A-C 22' Height Minimum 60' Height Maximum	The site is not located on a Major Pedestrian Route (MPR).	N/A
Ground Floor Elevation on Commercial and Multiple Use Buildings		
60.05.15.8.A-B Glazing and Weather Protection	The proposed development is for an attached residential use.	N/A
Compact Detached Housing Design		
60.05.15.9.A-K	Compact Detached Housing is not proposed.	N/A

Section 60.05.20 Circulation and Parking Design

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
Connections to the public street system		
60.05.20.1 Connect on-site circulation to existing and planned street system	The proposed townhomes are located north of the future SW Barrows Road extension and south of the future SW Alvord Lane which will connect to the future right of way of SW 176th Drive. at two locations.	YES
Loading Areas, solid waste facilities and similar improvements		
60.05.20.2.A-E Service and Loading Area Screening Requirements	The applicant states that no on-site service areas, outdoor storage areas, waste storage, disposal facilities, recycling containers, are proposed or anticipated with this development and that any required transformer or utility vaults will be installed per jurisdictional requirements and screened as appropriate.	N/A
Pedestrian Circulation		
60.05.20.3.A Link to adjacent facilities	Planned pedestrian facilities were approved with the Vineyard at Cooper Mountain PUD (ZMA2018-0005/CU2018-0014/LD2018-0025/LD2018-0026/PLA2018-0002/SDM2018-0004/TP2018-0007). The applicant's plans show that the proposed townhomes will connect to the previously approved public sidewalks and common walkways.	YES

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
60.05.20.3.B Direct walkway connection	The applicant's plans show a reasonably direct walkway connection is provided between the primary entrances of the townhomes to the public and private streets.	YES
60.05.20.3.C Walkways every 300'	Townhome Buildings 1 through 5 have frontages along SW 176 th Drive which exceed 300 lineal feet. The applicant's plans show a pedestrian walkway from SW 176 th Drive to SW 175 th Avenue identified as Tract P between Buildings 3 & 4. The applicant's plans also show a pedestrian walkway from SW 176 th Drive to SW 175 th Avenue to the south of Building 1 identified as Tract O, previously approved under Vineyards at Cooper Mountain Estates (DR2023-0031).	YES
60.05.20.3.D Physical separation	There are no pedestrian connections that cross parking lots.	N/A
60.05.20.3.E Distinct paving	No pedestrian connections are proposed across drive aisles.	N/A
60.05.20.3.F 5' minimum width	Applicant's plans show internal walkways within the individual lots have a minimum width of 5 feet (Section 60.05.20.3.F).	YES
Street Frontages and Parking Areas		
60.05.20.4.A.1-2 Street frontages and parking areas	Surface parking abutting a public street is not proposed.	N/A
Parking and Landscaping		
60.05.20.5.A-D Parking area landscaping requirements	Parking areas are not proposed. Private driveways and garages provide parking for individual townhome units.	N/A
Off-Street Parking Frontages in Multiple-Use Districts		
60.05.20.6.A-C Off-Street Parking Area Frontage Requirements	The site is not located in Multiple-Use District.	N/A
Sidewalks Along Streets and Primary Building Elevations in Multiple-Use and Commercial Districts		
60.05.20.7.A-C Required sidewalk and internal pathway widths	The site is in a Residential zone.	N/A

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
Connect on-site buildings, parking, and other improvements with identifiable streets and drive aisles in Residential, Multiple-Use, and Commercial Districts		
60.05.20.8.A-B Drive aisles to be designed as public streets, if applicable	The proposal does not include drive aisles or private streets. The site contains a private street and public street which were previously reviewed and approved with The Vineyard at Cooper Mountain PUD.	N/A
Ground Floor uses in parking structures		
60.05.20.9.A Parking Structures	No parking structures are proposed.	N/A

Section 60.05.25 Landscape, Open Space, and Natural Areas Design Standards

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
Minimum Landscaping		
60.05.25.3 Minimum landscaping for development of eight or more attached housing units	The site was a part of a Planned Unit Development, so the original approval was subject to PUD open space requirements of BDC 60.35.15 which supersede the Design Standards of this subsection. The proposed landscaping changes do not modify the site's compliance with approved PUD open space.	N/A
60.05.25.4.A Front yard landscaping	All front yard areas that are not occupied by structures, walkways, or driveways are landscaped with shrubs, grasses, and trees.	YES
60.05.25.4.B Landscaping materials	The applicant's plans show all required front yard areas include live plant materials. Bare rock or gravel is not proposed.	YES
60.05.25.4.C Vehicular circulation areas	The site was a part of a Planned Unit Development; therefore, the original approval was subject to PUD open space requirements of BDC 60.35.15. The proposed landscaping changes do not modify the site's compliance with approved PUD open space.	N/A
60.05.25.4.D Landscaping along foundations	All street-facing building elevations shall have landscaping along their foundation. The following elevations face a street: <u>Building 1, 2, 3, 4:</u> Western elevations. The applicant states that Building 1's street facing foundation is 25 lineal feet, requiring 8 evergreen shrubs. The applicant's plans	YES

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
	<p>show 11 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation.</p> <p>The applicant states Building 2's street facing foundation is 44 lineal feet, requiring 15 evergreen shrubs. The applicant's plans show 18 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation.</p> <p>The applicant states Building 3's street facing foundation is 45 lineal feet, requiring 15 evergreen shrubs. The applicant's plans show 18 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation.</p> <p>The applicant states Building 4's street facing foundation is 25 lineal feet, requiring 8 evergreen shrubs. The applicant's plans show 11 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation.</p> <p><u>Building 5:</u> Western and Northern. The applicant states Building 5's street facing foundation is 25 lineal feet, requiring 8 evergreen shrubs. The applicant's plans show 11 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation. Building 5's northern elevation also faces SW Alvord Lane and the landscaping approved provided in Tract Q and approved under LD2018-0026 provides 8 evergreen shrubs and 3 trees which will exceed 3 feet in height at maturity.</p> <p><u>Building 6, 7, 8:</u> Eastern. The applicant states Building 6's street facing foundation is 25 lineal feet, requiring 8 evergreen shrubs. The applicant's plans show 11 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation.</p> <p>The applicant states Building 7's street facing foundation is 44 lineal feet, requiring</p>	

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
	<p>15 evergreen shrubs. The applicant's plans show 18 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation.</p> <p>The applicant states Building 8's street facing foundation is 44 lineal feet, requiring 15 evergreen shrubs. The applicant's plans show 18 evergreen shrubs, reaching a minimum mature height of 24 inches, are provided along the street-facing foundation.</p>	
<p>60.05.25.4.E Landscape planting requirements</p>	<p>The site was a part of a Planned Unit Development; therefore, the original approval was subject to PUD open space requirements of BDC 60.35.15. The proposed landscaping changes do not modify the site's compliance with approved PUD open space.</p>	<p>N/A</p>
<p>60.05.25.4.F Pedestrian plazas</p>	<p>No pedestrian plazas are proposed.</p>	<p>N/A</p>
Retaining Walls		
<p>60.05.25.8 Retaining Walls</p>	<p>No retaining walls are proposed.</p>	<p>N/A</p>
Fences and Walls		
<p>60.05.25.9.A-E Fencing and Wall Requirements</p>	<p>The applicant proposes fencing along the side and rear property lines of Lots 156 through 174 and 189-198. The applicant's plans show that the cedar fence will be approximately 6 feet in height.</p>	<p>YES</p>
Minimize Significant Changes to Existing On-Site Surface Contours At Residential Property Lines		

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
60.05.25.10.A-C Minimize grade changes	Grading was evaluated with the Vineyard at Cooper Mountain PUD (ZMA2018-0005 / CU2018-0014 / LD2018-0025 / LD2018-0026 / PLA2018-0002 / SDM2018-0004 / TP2018-0007). The applicant does not propose to modify the previously reviewed and approved grading plans.	N/A
Integrate water quality, quantity, or both facilities		
60.05.25.11 Location of non-vaulted facilities	This request does not propose changes to water quality or quantity facilities from the original approval.	N/A
Natural Areas		
60.05.25.12 Natural Areas.	Natural areas on and near the site were addressed as part of the Vineyard at Cooper Mountain PUD. The applicant states that no natural areas are impacted with this Design Review application, as confirmed through the included letter from CWS staff dated 10/23/2023.	N/A
Landscape Buffering Requirements		
60.05.25.13 Landscape buffering between contrasting zoning districts	Landscape buffers are not required where the townhomes abut property with the same zoning designation. The townhomes abut the same zone to the north, east, west, and south.	N/A

Section 60.05.30 Lighting Design Standards

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
Adequate on-site lighting and minimize glare on adjoining properties		
60.05.30.1.A and B Lighting complies with the City's Technical Lighting Standards	The City's Technical Lighting Standards require a minimum 0.7 foot-candle illumination level of roadways, access drives, parking lots, vehicle maneuvering areas, pathways and sidewalks of all new developments and building entrances. The Standards also state that lighting levels at property lines not abutting the ROW may not exceed 0.5 foot-candles. The applicant's lighting plan (Exhibit 3.6) shows a minimum 0.7 foot candle at the entrance ways, vehicle, and pedestrian circulation areas for the proposed buildings. All lighting from the original PUD approval continues to be applicable for the site as well.	YES
60.05.30.1.C Lighting of Ped Plazas	Pedestrian plazas are not proposed.	N/A
60.05.30.1.D Lighting of building entrances	The applicant's Photometric Plan shows adequate lighting at proposed building entrances.	YES
60.05.30.1.E Canopy lighting	Canopy lighting is not proposed.	N/A
Pedestrian-scale on-site lighting		
60.05.30.2.A Pole Mounted Luminaires	Pole-mounted luminaires are not proposed.	N/A

DESIGN STANDARD	PROJECT PROPOSAL	MEETS STANDARD
<p>60.05.30.2.B Non-Pole Mounted Luminaries</p>	<p>Wall mounted lights are proposed at building entrances and near garage doors. The applicant submitted lighting cut sheets demonstrating that the proposed light fixtures meet the Technical Lighting Standards. The light near primary entrances will be recessed into the porch ceiling.</p>	<p>YES</p>
<p>60.05.30.2.C Lighted Bollards</p>	<p>The proposed bollards are 39.5 inches.</p>	<p>YES</p>

Attachment C: CONDITIONS OF APPROVAL

Application: LU22023-00792 Vineyard Phase II Townhomes (DR22023-00789)

Recommendation: APPROVE DR2023-00789, subject to the conditions of approval herein

Design Review Two (DR2023-00789)

A. Prior to Building Permit issuance for Buildings 2 and 4, the applicant shall:

1. Submit revised plans for Buildings 2 and 4, demonstrating compliance with Section 60.05.15.2.B Roof Forms. (Planning/BC & SO)

B. Prior to final inspection and final occupancy permit, the applicant shall:

2. Ensure all site improvements including but not limited to landscaping and pathways are completed in accordance with plans marked "Exhibit 3.4", except as modified by the decision-making authority in conditions of approval. (On file at City Hall). (Planning /BC & SO)
3. Ensure all construction is completed in accordance with the Materials and Finishes form and Materials Board, both marked "Exhibit 3.13", except as modified by the decision-making authority in conditions of approval. (On file at City Hall). (Planning / BC & SO)
4. Ensure construction of all buildings and other structures are completed in accordance with the elevations and plans marked "Exhibit 3.5", except as modified by the decision-making authority in conditions of approval. (On file at City Hall). (Planning /BC & SO)
5. Have recorded the final plat for the subdivision in County records and submitted a recorded copy to the City. (Planning/BC & SO)
