Dear Beaverton which is slowly becoming not much different from Aloha,

In regards to:

Project Name: Queenz Asian Cuisine
Case File No.: CU2022-0006 / CU2022-0007

This neighborhood is not Chinatown / Old Town, Oregon. This restaurant has violated city laws regarding the loudness of music and operational hours.

Beaverton is a city that has not shown they can even give timely updates on the Western Avenue road diet which will reduce crashes, didn't repaint the bike lanes on 5th Street for several months (check google street view and multiple witnesses in the previous decade), and wants to punch through a deadly \$10 million dollar plan to have Millikan Way connect to Lombard Ave's busy Beaverton transit center *where a path currently connects Lombard to a generic car dealership in downtown Beaverton. Your city is engorged with construction of car dealerships, drive-thrus, but it is becoming less livable.*

sincerely,
