Thank you for getting these to me Elena. Seems you had to take some extra steps to make it happen. I appreciate it.

Hi Rick,

Sorry for bombarding you with emails. I got the scanner to work so the attached document is a copy of what you saw at the planning counter yesterday.

Thank you,

Elena Sasin

Subject: Re: SW 155th 3-Lot Partition

Thanks for the update Elena.

The previous attempt may have been a small part of a much larger application. As I recall the majority of development of the Murrayhill property was done in phases by Columbia-Willamette Development Company, a subsidiary on Portland General Electric. The first sale date I could find for the existing home on the property is 1992, don't know how much prior to that the application might have been.

Hello Rick,

Thank you for coming in yesterday and taking the time to review the proposed 3-lot partition on SW 155th. I'm having a bit of trouble scanning the large sheets so I've asked the applicant to email me a digital copy of the plans set. Once I receive that email I will forward it on to you. Yesterday afternoon I spent a couple of hours looking through our microfiche records trying to find the application which shows a previous attempt to partition the subject lot but was unsuccessful. I will keep looking today but if you have any additional information that may be helpful, please let me know.

Please let me know if you have any questions in the meantime.

Kind regards,

Elena Sasin

Attachments: Murrayhill 18 Plat.pdf

Hi Elena,

I went to the Murrayhill owners association office and looked through historical development records they had on file. Turn outs although lot 108 was initially part of Murray Hill 3, Murrayhill No 18 included a replat of lot 108. Murrayhill 18 was recorded by the city October 18, 1990.

I attached a scan. I was thinking this information might help you locate historical information about the property

Regards

Rick King

Elena,
First email bounced, trying again with compressed drawings. Please let me know if these work for you.
Thanks,
Steve
