

My name: Donlis Argueta Castaneda
Beaverton High School
Beginning ESL
Entered the United States in October 2014

I am from Guatemala. It is the Land where I was born, where I did live till I was 17 years old. In those years, I realized that many bad things happen in my country, and the situation is very bad. There are many crimes and people are killed everyday. The situation never gets improved.

However, Guatemala is a beautiful country. I would love that someday the situation improves. It is my country and I will never forget it. I want to see it grow and everything that is corruption of all governments improve. The country's poverty is getting worse. The government should put more interest in my country. Security does not arrive on time and sometimes two or three hours later.

People got assaulted and corrupt cops only watch, and not do anything. Sadly it is my country and I hope to get back there someday to see improvement.
